

The Manheim Sportsmen offer 2 lighted ATA regulation trap fields that are open to the public Wednesday evenings and Saturday mornings. Targets have been set and adjusted according to the rules governed by the Amateur Trapshooting Association. We use an automatic wireless voice release system, which can throw a target having a consistent presentation without the hassle of dealing with fast or slow pulls. We are currently offering either 16-yard single, or handicap targets. We can also throw doubles if we have enough interest. All experience levels welcomed, from the seasoned trap shooter to someone just trying for the first time.

The Manheim Sportsmen are also proud to have joined the Amateur Trapshooting Association (ATA) to offer shooters looking to register targets the ability to acquire them here. Currently we are offering The Big 50 with hopes to expand into tournaments and marathons. Check out the ATA tab on our website or go to www.shootata.com for more information and shoot dates.

So, whether it's for practice, registered, or just plain fun come on out and break some clay!

Volunteers are needed to help the trap committee at one or two events a month. Remember, that volunteering to help run our trap sessions creates club bucks for those that volunteer (2 to 3 club bucks per trap session). Those club bucks can accumulate quickly and will help to offset your MSA annual membership cost.
